

## Data Collection and Preprocessing Phase

Date	10 July 2024
Team ID	739713
Project Title	Beansense: Precision Bean Classification For Enhanced Agricultural And Culinary Applications
Maximum Marks	2 Marks

### Data Quality Report:

The data quality report for Precision Bean Classification for Enhanced Agricultural and Culinary Applications indicates high data accuracy and consistency, with minimal missing values and outliers, ensuring reliable classification results. The dataset's integrity and completeness support robust agricultural and culinary application development.

### Data Quality Report:

Data Source	Data Quality Issue	Severity	Resolution Plan
Sensor Data	Missing Values	High	Impute missing values using appropriate methods.
Farmer Input	Inconsistent Entries	Medium	Standardize data entry processes and validation checks.
Market Data	Outliers	Medium	Apply statistical methods to identify and handle outliers.
